

## Announcement of Ban Kai Technical College

Regarding the policy to reduce global warming, Ban Kai Technical College

.....

Currently, global warming is a problem caused by climate change, which has a ripple effect on the ecosystem and living things. The Cabinet has resolved for government agencies to implement measures to reduce global warming as an example for the private sector and the public, in accordance with the 20-year national strategy (2018 - 2007) on creating growth on a quality of life that is friendly to the environment.

The Office of the Vocational Education Commission, in collaboration with UNESCO-UNEVOC, GIZ and BIBB, has developed a plan to improve the guidelines for vocational education to be consistent with green skills development (Green Workforce Development). Green TVET or technical and vocational education and training for the environment is the integration of environmental knowledge and skills with vocational and technical training to create a workforce capable of working in environmentally friendly occupations and promoting sustainable development. Recognizing this importance, Ban Kai Technical College has announced a policy to reduce global warming as follows:

1. Create awareness and promote knowledge and understanding of global warming
2. Promote and disseminate the policy to reduce global warming for personnel in Ban Khai Technical College to participate in the implementation
3. Use the technology management system to reduce the use of paper and printed materials with the Digital College
4. Promote the use of resources for maximum benefit, change the work process and equipment, use energy efficiently
5. Create a Green Office, reduce greenhouse gas emissions, reduce waste, use waste, stop using plastic bags and foam to prevent and reduce environmental problems
- /6. Improve...

6. Improve the environment and landscape to be safe, promote reforestation to increase green areas, conserve natural resources and the environment

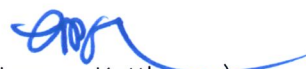

7. Review and develop the operating system continuously to aim for sustainable global warming reduction

8. Be an example for government and private colleges in reducing global warming

9. Create awareness of teaching and learning management to students, students and parents, and create cooperation of local communities to manage the environment together sustainably

From now on

Announced on January 6, 2025

(Mr. Yutthapan Kotthapan)

Director of Ban Khai Technical College
